

Ms. Florenz's 4th Grade Website

Joining Our Google Classroom

This will be my website, since all families are familiar with this platform. This is where I will post all important information you will need to reference for the year.

See direction below on how to find Google classroom in Spartan Apps and how to use the code to first join. You will only have to use the join code once and after that you can either use the mobile app or log into Spartan apps via the laptop or desktop computer.

To Join:

1. From the district home page sign into "Student Spartan Apps/Email" (on right hand side of page).
Your username is your email address that you use in computer class! *Make sure to use the entire address (_____@student.nhart.org)*
2. Once you sign in, on the top right click the "9 square icon" for a drop down menu and click on "Classroom."
3. Look again to the top right of screen and click on the + sign and enter in our class code: **h6piqep**
The Class name is **Ms. Florenz 2021-2022**.

You're all set!

Download the App on your phone or ipad!

Go to the App store on your device and search "Google Classroom." It's the easiest way to stay connected with our online classroom! You can allow for notifications as well, so you are alerted when myself or a classmate posts!
