Regents Review 2.0 <http://www.wcny.org/education/regentsreview/> has videos, study materials, PowerPoints, and other resources available. This is a great way to start reviewing for your Regents Exams.

If you are planning on re-taking a Regents Exam in June to improve your grade, you MUST see your counselor as soon as possible to make certain you are registered for the test.

### Naviance College Search options and Tips:

There are 2 great ways to quickly get a list of colleges that you can research using Naviance – *Super Match* and *College Search*. Both options let you select criteria that is important to you. You should always start with the most important items and move to least important to get the best list to research.

In *SuperMatch* as you select criteria you will get a list of schools with the % each school meets your selected criteria. This will pull in your GPA and ACT/SAT scores to show you how you match up to the colleges in the list.

In *College Search* you will get a better list of schools if you just answer the questions that are most important to you. Each time you answer questions and go to another section make sure to “View Matches” so you have an idea of how many schools meet the criteria you have selected. Once you have a reasonable number (usually fewer than 30 schools) you can really start researching the schools to see if you are interested in the school.

**If you are stuck in the college search process, please see your counselor!**
