

NEW HARTFORD CENTRAL SCHOOL DISTRICT-WIDE SCHOOL SAFETY PLAN

INTRODUCTION

School districts are *required* to develop a District-Wide School Safety Plan (DWSSP) to address emergencies and violent incidents. These plans are meant to be implemented quickly and effectively. The DWSSP aims to: prevent or minimize the impact of serious violent incidents and emergencies and facilitate coordination between the district and local/county resources during such events, and serve as a framework for the more detailed Building-Level Emergency Response Plan (BLERP) that is required at each individual school building.

School districts face a wide range of potential threats, including acts of violence, natural disasters, and technological disasters. New York State's Safe Schools Against Violence in Education (SAVE) law mandates comprehensive planning to address these threats. This includes planning for:

- **Risk reduction/prevention:** Strategies aimed at reducing the likelihood of violent incidents and emergencies.
- **Response:** Clearly defined actions to be taken during various emergency situations.
- **Recovery:** Procedures for supporting students, staff, and the community in the aftermath of an incident.

School districts/BOCES are expected to regularly review and update their DWSSPs to ensure they remain relevant, effective, and in compliance with ever changing state regulations.

RISK REDUCTION/PREVENTION - SCHOOL CLIMATE

This section focuses on the district's strategies for preventing and reducing the risk of negative events, emphasizing the importance of a positive school climate and effective communication.

The district acknowledges that while prevention is the ideal goal, not all negative events can be prevented. Therefore, they focus on both *prevention* (proactive measures) and *risk reduction/intervention* (minimizing the impact of events that do occur). Improving school culture, climate, and communication are seen as key to both.

Program Initiatives:

The district highlights the importance of programs and activities that foster a positive school climate, enhance communication, and encourage reporting of potentially dangerous, suspicious, or violent behavior. These initiatives aim to improve safety, security, and quality of life for the entire school community and create a positive and safe learning environment.

The following are examples of current initiatives:

- **School Resource Officer Program/presentations:** Having School Resource Officers (police officers) in schools or providing presentations is a common prevention and intervention strategy.
- **County Probation Officer on-site:** Having a probation officer present in the school can provide support and intervention for at-risk students.
- **Other programs, projects, and activities:**
 - Community involvement in schools
 - Mentoring programs
 - Adjusting schedules to minimize potential conflicts or altercations
 - School Resource Officers/Special Patrol Officers
 - Positivity Project, Restorative Practices, Character Education, SEL, PBIS, Peer Mediation, Youth Courts, Connected Community Schools, etc.

RISK REDUCTION/PREVENTION - SCHOOL SAFETY & BUILDING SECURITY

This section details the implementation of school safety and building security measures, including routine precautions, access control, visitor policies, hazard identification, and construction safety.

- **Routine Precautions:** All staff are required to immediately report any information or observations that could impact school safety to their principal or supervisor. The policy emphasizes erring on the side of caution and reporting even seemingly minor details.
- **Limited Access:** Each building implements a limited access policy, tailoring it to their specific needs. This generally involves keeping only essential exterior doors unlocked during the school day and monitoring those doors. All other entrances are secured shortly after the start of the school day. Electronic visitor access control systems are used at primary entrances.

Keyless/electronic access systems are used for authorized personnel.

- **Staff Photo Identification Badges:** All employees must wear photo ID badges at all times while on district property.
- **Visitor Policy:** All visitors must report to the main office, sign in, wear a visible name badge, and sign out. Staff are instructed to approach any unannounced visitor without proper identification.
- **Student Sign-Out Procedures:** The district verifies that only authorized individuals sign out students. Staff may require a photo ID and contact a parent/guardian for confirmation.
- **Video Surveillance:** A digital video surveillance system monitors high-use areas and areas of concern.
- **School Safety Assessment:** Regular school safety assessments are conducted to identify potential safety problems.
- **Fire Alarm:** A fire detection alarm system linked to a central monitoring station is in service. Regular testing is conducted.
- **Random Drug Sniffing Canine Search:** The district may occasionally conduct canine searches.
- **Vital Educational Agency Information:** The district maintains information on school population, staff numbers, transportation needs, and key official contact information.
- **School Resource Officer/Special Patrol Officer:** The district contracts with local law enforcement agencies for a School Resource Officer (SRO) and/or Special Patrol Officer (SPO) who acts as a liaison between students and staff and handles anonymous reports.
 - Duties, Hiring and Screening Process for Safety/Security Personnel:
 - The district can rely on established past practices. Civil service procedures, in consultation with the district, may define the duties.
 - The district itself can determine the duties, provided they adhere to all relevant federal, state, county, and municipal guidelines.
 - The district is committed to equal opportunity employment, adhering to:
 - The Civil Rights Act of 1964, Public Law 90-202, and/or Section 504 of the Rehabilitation Act of 1973 .
 - Hiring processes must comply with all applicable federal, state, county, and municipal laws and guidelines. Qualifications are set by civil service (if applicable) or by the Board of Education. Since July 1, 2001, all newly hired school personnel must submit two sets of fingerprints for background checks, as required by the Schools Against Violence in Education Legislation of 2000.
 - This excerpt does not provide explicit details concerning the required training of hall monitors and other school safety personnel. It does state that the duties will be provided by past practice, civil service, or the district, and that the district must follow all Federal, State, County and Municipal guidance, so it can be assumed that any training required by that guidance must be followed.

Early Detection of Potentially Violent Behaviors:

The district recognizes the importance of early intervention. Staff professional development includes training on school violence prevention and mental health. Communication strategies are used to deter violence, involving various stakeholders (law enforcement, health professionals, etc.) when appropriate and legally permissible. Information on early detection of potentially violent behaviors is distributed to the school community. Students, parents, and staff are encouraged to report any concerning behaviors. Strategies for improved communication include:

- Clear expectations for students (Code of Conduct).
- Attentive listening to students.
- Encouraging communication among all stakeholders.
- Multi-agency teams.
- Staff training on effective listening and questioning.
- Programs promoting character development.

Hazard Identification:

Potential emergency sites include the main building (s), playground, adjacent properties, buses, off-site trips, and nearby commercial areas. Building-Level Emergency Planning Teams identify unique hazards at their locations. The district has multi-hazard response plans (based on Incident Command System and NIMS) for:

- **Civil Disturbance:** Bomb threat, intruder, hostage, kidnapping, assault/threat, threat of suicide.
- **Environmental Emergency:** Flood, hazmat, snow/ice, tornado, storm, fire, explosion, gas leak.
- **Building Failure:** System failure, structural failure.
- **Medical Emergency:** Injury/illness, accident, mass illness/epidemic, pandemic.
- **Extreme Heat Condition Days:** Schools are required to keep students and staff safe on extreme heat days and will incorporate strategies for this requirement beginning September 1, 2025. Mitigation measures begin at 82 degrees.

Identified onsite hazards can include: chemical storage, welding areas, indoor vehicle areas, compressed gas storage, paint booths, congregation areas, conference areas, and boiler/mechanical rooms.

Identified off site hazards can include: major highways (chemical transport), the airport (flight path), railroad, industrial sites, and creeks.

D. Construction and Capital Project Safety:

The district ensures student and staff safety during construction, which may include background checks on workers, maintaining emergency egress routes, and notifying building occupants of changes. The District Safety Committee (or a subcommittee) may monitor construction safety. The committee may include the Superintendent, Director of Facilities, Safety Services members, administrators, architect, construction manager, and contractors, and will meet as needed to address safety concerns.

EMERGENCY RESPONSE - PLANNING, DRILLS/TRAINING COMMUNICATION, AND PROCEDURES

This section covers the planning including: drills and training, notification and activation procedures, situational responses to various emergencies, including acts of violence and terrorist threats, and available protective action options.

Planning:

- **Multi-Hazard Response:** This involves developing comprehensive plans to address a variety of potential emergencies, including natural disasters, technological incidents, and human-caused threats. It emphasizes a unified approach, ensuring that staff and students are prepared to react effectively regardless of the specific hazard. This strategy aims to create a safer and more resilient school environment by prioritizing proactive planning, training, and consistent practice. A typical response protocol includes:
 - Assess the situation (Incident Commander/Designee)
 - Implement response action
 - Notify parents/guardians
 - Recovery
 - Evaluation
- **Building-Level Emergency Response Plan Planning Protocols:** Building-Level Emergency Response Plans include protocols for bomb threats, hostage takings, intrusions, and kidnappings, including:
 - Identification of decision-makers
 - Plans to safeguard students and staff
 - Transportation procedures
 - Parent notification procedures
 - Media notification procedures
 - Debriefing procedures

Training (Emergency Response Procedures):

This section details the required drills and training procedures for emergencies, emphasizing a trauma-informed approach and compliance with Education Law §807.

- **All Staff Training (including subs):** will receive training by **September 15th** annually, (new employees will be trained within 30 days of hire) training on emergency response procedures (with review of the Emergency Response Card), different types of hazards, appropriate response actions, violence prevention, mental health awareness, and the Incident Command System including roles and responsibilities.
- **Student Training:** will take place in an age- and developmentally appropriate manner prior to the first drill.

Emergency Response Procedures:

- **Shelter-in-Place:** Used to shelter students and staff inside the building.
- **Hold-in-Place:** Used to limit movement of students and staff while dealing with short-term emergencies.
- **Evacuate:** Used to evacuate students and staff from the building.
- **Secure Lockout:** Used to secure school buildings and grounds during incidents that pose an imminent concern outside of the school.
- **Lockdown:** Used to secure school buildings and grounds during incidents that pose an immediate threat of violence in or around the school.

Drill Requirements and Trauma-Informed Approach:

- **Mandated Drills to Practice Emergency Response Procedures:** Each school must conduct 4 lockdown drills and 8 evacuation drills (12 total) annually, as required by Education Law §807. With 6 evacuation drills and 2 lockdown drills occurring before December 31st, annually and after students and staff receive training in emergency response procedures has been provided. Remaining drills need to be completed by June 30th, annually.
- **Prohibited Tactics:** Drills and training during the school day with students present *cannot* include props, actors, simulations, or tactics mimicking school shootings, violence, or other emergencies.
- **Trauma-Informed Drills:** All drills and exercises must be trauma-informed, meaning they avoid tactics that could trigger past trauma, such as using props, actors, simulations, or mimicking school shootings or other violent events. The focus is on understanding trauma and its impact on students and adults.
- **Developmentally Appropriate Content:** Drills must be developmentally and age-appropriate.
- **Tabletop Exercises:** Tabletop exercises (discussions of roles and responses to sample emergencies) can be used for staff training in coordination with local and county emergency officials, especially when live drills are impractical.

Notification of Drills to Parents/Guardians:

Parental notification is required for all drills, including evacuation drills. Notice to parents and those in parental relation regarding drills must be made within one week before each drill, meaning at least 1 day before and no more than 7 days before the drill.

Plan for informing Parents/Persons in Parental Relation of Drills
At the beginning of each school year, parents/guardians will receive a notification via Parent Square outlining the school's emergency response protocols. Additionally, they will be notified of drills through Parent Square at least one day, but no more than seven days, prior to each drill.

Parental notification is not required for bus drills.

Announcing Drills:

Students and staff will be informed of drills at the time a drill occurs except for evacuation drills. They are not required to be announced as per the NYS Fire Code.

Post-Drill Debriefings:

Each drill/exercise will be followed by a debriefing session for staff involved in identifying areas for improvement in emergency response actions and protocols.

Additional Drills:

- Drills will be held during summer school, with one drill occurring during the first week.
- Go-Home Early dismissal drills will not occur more than 15 minutes before the normal dismissal time. Parents/guardians will be notified in writing at least one week prior to the drill. Transportation and communication procedures will be included in the drill.
- Bus Evacuation Drills

Full-Scale Exercises:

Full-scale exercises (involving props, actors, or simulations) conducted with local/county emergency responders *cannot* be held during regular school days or when school activities are occurring. Students cannot participate in these exercises without written parental/guardian consent.

Communication:

EMERGENCY REMOTE INSTRUCTION PLAN

Introduction

The NHCS D Board of Education recognizes the need for continuous learning, anytime, anywhere. While some settings are better than others to meet this need, there may come a time when we must provide continuity of teaching and learning in difficult circumstances and less-than-optimal settings.

The inclusion of an Emergency Remote Instruction Plan in New Hartford Central School District's Safety Plan is required at the beginning of the 2023-2024 school year, as noted at the September 2022 meeting of the Board of Regents. All public schools, boards of cooperative educational services (BOCES), and county vocational education and extension boards must amend their district-wide school safety plans to include plans for remote instruction. The plans must include the methods by which public schools, BOCES, and county vocational education and extension boards will ensure the availability of devices, internet access, provision of special education and related services for students with disabilities, and the expectations for time spent in different remote modalities.

Intention of the Plan

The intention of this plan is to preserve the continuity of instruction during a time when assembling in person is not possible due to emergent health and safety risks causing a forced closure of our school facilities. It is important to keep in mind that the remote learning plan is in no way an optimal substitute for the in-person, teacher-student relationship that fosters the best learning opportunities. Because of the nature of such circumstances, this is an optimized 'band-aid' to meet potential learning needs during an emergent set of distancing needs. Preparation, implementation, outcomes, and next steps should be thoughtfully considered with flexibility and an open mind to designing success for staff, students, and the families impacted by whatever emergency occurs. To that end, this plan is a living plan. As the needs and circumstances shift, the HTPS administration and teacher leaders will adapt this plan to best meet those needs and address the emergent circumstances.

Overview of the Plan

Should the decision be made to force temporary, but extended closure of our school facilities, please know that we may consider exhausting all emergency closing days first, and if necessary, hold four-hour school days using days appropriated as breaks in the school calendar.

To meet the challenge of providing continuity of instruction and learning in such difficult circumstances, New Hartford Central School District will use remote blended learning designs. This is a combination of traditional learning experiences as well as digital learning experiences. The determination of traditional versus digital will be based upon the developmental appropriateness of, and availability of, access to digital resources. Daily learning plans, as they are regularly used, will continue to be available to students and families. This will help students and their families follow the learning path, access content, and offer context for learning 34 experiences.

Equitable Access and Opportunity to Instruction

Students (Pre-K-12)

In the event that the district transitions to all remote instruction, all students will have access to Wi-Fi and a device.

The bullets below denote the system in place to support the aforementioned statement.

- The New Hartford Central School District implemented a 1:1 technology initiative in grades K-12.
- The district has a Verizon Account with MiFi available if it has to pivot to all remote. If the district transitions to remote instruction, the parents/guardians will complete a ParentSquare survey at the building level to determine who does not have internet access available at home. All of the students who do not have access to sufficient broadband will be given a MiFi device. The district has the aggregate data of students who need MiFis in the event of a school closure.
- All students have a District-issued G-Suite account and password and access to all required applications and platforms.
- All students/guardians have completed a device loaner agreement.
- The Technology Department is accessible to students, parents, or guardians remotely to troubleshoot and resolve issues with devices and learning platforms/software.

Staff

All teachers have access to district-owned devices. All new teachers received a computer during New Staff Orientation, the first day of school, or starting employment.

- Accordingly, the New Hartford Central School District is prepared to ensure the continuation of learning for any class or students that may have to shift to remote learning. In order to prepare for the continuation of learning via remote instruction, the district has taken the following steps to ensure we can pivot to all remote at any point in time:
 - By the opening of school, all teachers will be required to create a Google Classroom and Zoom Link. All certified staff will also generate a Zoom link (i.e., social workers, school psychologists, non-traditional school psychologists, speech therapists, Occupational Therapists, Physical Therapists). The links generated will be entered in the District Zoom Link Directory. Any technical help will be offered to new staff in creating a Google Classroom and a Zoom link.
 - Google Classroom and Zoom is the learning management system that allows the district to immediately pivot to all remote instruction.
- Staff are encouraged to contact their building technician and submit a Master Library help ticket for assistance with any technology tools and matters related to technology troubleshooting. The Technology Department is accessible to staff remotely to troubleshoot and resolve issues with learning platforms/software.

Parents/Guardians

All students, parents, or guardians have completed a device loaner agreement.

If we transition to remote instruction, teachers will submit a Master Library help ticket to report any issues received from parents or guardians about student devices. Our technicians will check this data daily to ensure all our students have a working device.

The Technology Department will be made accessible to students, parents, or guardians remotely to troubleshoot and resolve district-provided hardware issues. The Office of Curriculum and Instruction will provide support for learning platforms/software.

All communications sent by the district to parents or guardians will come from ParentSquare.
